Remote Control Function

Remote Control Function

1. Use the 2.4G frequency RF remote control, no need to make the remote direct to the controller, and the RF remote can control it across obstacles.

2. Adopt the press key control remote, it can quickly adjust to the light's color temperature and brightness smoothly.

Match code Instruction

Please press the "Group X(X=1,2,3,4) ON" Button for 2 seconds within 6 seconds when power the controller, then the output led light will flash for 3 times, this means the remote is match code with this 5/5 receiver successfully, they can used normally.

Clean code Instruction

if want to change the light control group, can clean the code off. After cleaning code, the remote and receiver will be in the initial state. Operation method: Press the "Group X(X=1,2,3,4) OFF " Button for 2 seconds within 6 seconds when power the controller, till the output light flash for 3 times, means clean code successfully.

Typical Application

Power Supply | Group 1

Power Supply | Group 2

Power Supply | Group 3
